Key Spaces
- Private Offices
- Cubicles / Open Plan
- Lobbies / Reception
- Meeting Rooms
- Bathrooms / Halls
- Storage / Warehouse
- Aisles / Corridors
- Cafeteria
- Fitness Center
- Outdoor Signage
Upgrade your lighting to LED to increase **COMFORT, CONTROL & SAVINGS**.

Lighting retrofits with even simple controls can reduce lighting energy use by as much as 50%, payback in less than three years, and improve your tenant’s satisfaction and well being. Upgrading your office spaces from fluorescent to LED technology can deliver dramatic energy savings, eliminate dark spaces, reduce maintenance costs, and increase the comfort of your occupants. Universal’s EVERLINE luminaires and retrofit products make it easy to meet fast installation and stringent energy requirements with high performance.

*Retrofit your lights today to LED, and enable your future potential with our Commercial Bluetooth® lighting control ecosystem*

Universal’s retrofit solution makes it easy to **INSTALL & CONTROL**.

Retrofit with Confidence & Ease.

Many, if not most, rebates today are contingent on the product being “DLC Qualified” meaning the product has been certified to meet stringent standards of LED fixture performance. Universal offers DLC standard and premium products making it easy to upgrade, qualify for available rebates and comply with energy regulations.

You can breathe easy knowing our products are reliable and components are “matched” with dimming 0-10V LED EVERLINE Drivers.

The EVERLINE retrofit and luminaire offering gives you the **RIGHT product** for the **RIGHT space**.
