FOR IMMEDIATE RELEASE

Universal Lighting Technologies Appoints Shackle as Director of Product Development

NASHVILLE, Tenn. (June 03, 2002) – Universal Lighting Technologies, a leading manufacturer of electronic and magnetic lighting ballasts, recently announced its appointment of Peter Shackle, Ph.D., as director of product development.

Shackle will focus on reinforcing Universal Lighting's reinforced commitment to the development of new lighting ballast technologies and designs. Shackle's extensive experience is derived from a variety of previous leadership roles in engineering, management and research development. His knowledge of electronic ballast technology has been recognized with 43 U.S. patents.

Shackle received a doctorate in physics from the University of Cambridge in Cambridge, England and a master's degree in business administration from the University of Florida in Gainesville, Fla.

For more information about lighting ballasts and controls, fax your request to (615) 316-5146 or visit the Web site at www.universalballast.com.

For nearly six decades, Universal Lighting Technologies, Inc., has been bringing power and precision to the world's most innovative lighting. Headquartered in Nashville, Tenn., with operations and distribution worldwide, the products of Universal Lighting Technologies are marketed under the Universal® and Triad® brand names. Universal Lighting Technologies is focused on designing, manufacturing and distributing the industry's finest lighting ballasts and controls. Universal Lighting Technologies —*The Power to Light. The Power to Lead.*
