Universal Lighting Technologies Updates ISO 9001:2000 Certification

Nashville, Tenn. (August 27, 2002) - Universal Lighting Technologies, a leading supplier of electronic and magnetic lighting ballasts, recently updated certification at all manufacturing facilities to meet current ISO (International Organization for Standardization) 9001:2000 standards.

ISO is a network of national standards institutes from 140 countries working in partnership with international organizations, governments, industries, businesses and consumer representatives. The ISO mission is to promote the development of standardization and related activities in the world, which facilitates the international exchange of goods and services. It also develops cooperative relations in the spheres of intellectual, scientific, technological, and economic activity.

The ISO 9001:2000 is a combination of the former ISO 9001 and 9002 certifications. This is the requirement standard used to assess the ability to meet customer and applicable regulatory requirements and thereby address customer satisfaction.

For more information about Universal Lighting Technologies and ISO 9001:2000, visit the Web site at www.universalballast.com.
