Universal Lighting Technologies Introduces High Range Voltage AccuStart® 5 Ballasts

NASHVILLE, Tenn. (March 31, 2004) – Universal Lighting Technologies, a leading manufacturer of lighting ballasts and controls, introduces the T5HO high range voltage (HRV) AccuStart® 5 ballast, available in two- and four-lamp configurations.

The AccuStart® 5 ballast for applications from 347 to 480 volts features programmed rapid start technology to provide long lamp life in frequently switched applications, such as occupancy sensors. All AccuStart® 5 products incorporate end-of-lamp-life shutdown circuitry, which ensures safe operation.

For more information on Universal Lighting Technologies and the E-tensity family of ballasts, call 1-800-BALLAST, fax your request to (615) 316-5146, or visit the Web site at www.universalballast.com.

For nearly six decades, Universal Lighting Technologies, Inc., has been bringing power and precision to the world's most innovative lighting. Headquartered in Nashville, Tenn., with operations and distribution worldwide, the products of Universal Lighting Technologies are marketed under the Universal® and Triad® brand names. Universal Lighting Technologies is focused on designing, manufacturing and distributing the industry's finest lighting ballasts and controls. Universal Lighting Technologies—*The Power to Light. The Power to Lead.*
