FOR IMMEDIATE RELEASE

Universal Lighting Announces ATV Winner

NASHVILLE, Tenn. (January 8, 2007) – Universal Lighting Technologies congratulates Brian Malatek of North Liberty, Iowa, for winning a Polaris Sawtooth ATV in the “Stock Up & Fill Up” giveaway. Malatek entered the national drawing at Crescent Electric Supply, a local Universal Lighting distributor in Iowa City. His name was chosen at random from more than a thousand participants.

In addition to the grand prize of a brand new ATV, the “Stock Up & Fill Up” promotional contest offered \$10 Visa gas gift cards to Universal Lighting customers who purchased ten Mult-E™ Kit ballasts. With multiple mounting options and exit configurations, the Mult-E Kit from Universal Lighting can replace virtually any CFL ballast. Every kit contains a Rapid Start Triad® multi-exit ballast, an exclusive snap-mount adapter plate, lead-wire harness, and a wire extraction tool. The diversity of the Mult-E Kit allows electrical contractors to significantly reduce the number of different ballasts they need to keep on hand.

Additional contests and giveaways from Universal Lighting are already underway for contractors and distributors. For more information, call 1-800-BALLAST or visit www.universalballast.com.

For nearly six decades, Universal Lighting Technologies, Inc., has been bringing power and precision to the world’s most innovative lighting. Headquartered in Nashville, Tenn., with operations and distribution worldwide, the products of Universal Lighting Technologies are marketed under the Universal® and Triad® brand names. Universal Lighting Technologies is focused on designing, manufacturing and distributing the industry’s finest lighting ballasts and controls. Universal Lighting Technologies—*Energy Intelligence in Lighting*.
