FOR IMMEDIATE RELEASE

EVERLINE® LED Wall Pack Achieves DesignLights Consortium™ Qualified Products Listing

NASHVILLE, Tenn. (Mar. 3, 2016) – Universal Lighting Technologies, Inc., a global leader in lighting and a member of the Panasonic Group, announces its EVERLINE LED Wall Packs will be featured in the DesignLights Consortium™ Quality Products Listing, an efficiency program that maintains the leading list of high-quality, high-efficiency LED products for the commercial sector.

“At Universal, we’re driven to become the go-to company for all things LED,” said Stephanie Boyle at Universal Lighting Technologies. “Our goal is to make sure EVERLINE LED products are top of mind for designers and installers, and the prestigious DesignLights Consortium’s decision to include the EVERLINE LED Wall Pack in its Quality Products Listing proves we are moving in the right direction.”

The EVERLINE LED Wall Packs are featured in two primary Quality Products Listing categories:

- Outdoor Non-Cutoff and Semi-Cutoff Wall-Mounted Area Luminaires
- Outdoor Full-Cutoff Wall-Mounted Area Luminaires

To meet Outdoor Full-Cutoff Wall-Mounted designation, the EVERLINE LED Wall Pack family is used in conjunction with the WCS-13BZ cutoff shield that reduces up-light and is required to qualify under the primary use category. The wall pack meets the Outdoor Non-Cutoff and Semi-Cutoff Wall-Mounted area luminaire designation without the addition of any accessories.

The DesignLights Consortium promotes quality, performance and energy-efficient commercial sector lighting solutions through collaboration among its federal, regional, state, utility and energy-efficiency program members; luminaire manufacturers; lighting designers; and other industry stakeholders throughout the United States and Canada. For a list of DesignLights Consortium QPL listed products, please visit www.designlights.org/qpl/en/saved/UBU24XJ.
